401K

Investing your money over time can help create a six-figure retirement fund when you're ready to relax. We hope you love working for Ōnin, but we don't expect you to want to work forever. That means you need options that allow you to plan for retirement without breaking the bank.

A small percentage of your pay is invested in a group of stocks called a mutual fund. Historically, mutual funds average about 8% annual growth. The longer you leave your money in, the more your 401(k) grows. In fact, there are hefty tax penalties if you take your money out before the age of 60. The sooner you start and the longer you go without touching it, the greater your returns.

When you set aside just \$3 – the cost of a fast-food cheeseburger – out of every \$100 you earn, Ōnin will match it, doubling your investment (does that make it a double-cheeseburger?). That money goes to work for you in the stock market, building wealth quietly in the background while you work to pay your bills like normal. As long as that money sits there and works for you and you keep contributing, in 40 years, you will have invested a few bucks per paycheck, but your 401(k) will be worth a hefty 6-figures.

Plan Details

- **Eligible after 9 months***
*9 months with less than 1 month break in service
- **No minimum contribution**
- **Full-time or part-time**
- **Ōnin will match your contribution****
**Ōnin will match your contributions up to 3%

Paid Holiday & Vacation Time

Holiday Pay

Teammates are eligible for holiday pay after completing 1,200 hours of service. Six paid holidays are offered: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day. To qualify, Teammates must have worked 1,200 hours in the 12 months preceding an Ōnin-paid holiday and work the scheduled days before and after the holiday. If a Teammate works on a scheduled paid holiday, they will still receive 8 hours of holiday pay in addition to any hours worked.

Vacation Pay

Teammates qualify for 40 hours of vacation time after accumulating 1,800 hours of service with no more than a 120-day break between assignments. Accrued vacation time is not paid out upon termination of employment. Vacation time may be "cashed out" by receiving payment for hours worked plus unworked paid vacation time. Up to 40 hours of unused vacation time may roll over annually, with a maximum usage limit of 40 hours per year.

*Unless preempted by other local state or county laws and ordinances
